## REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior arts fail to teach or fairly suggest a semiconductor memory device having a bitline coupling scheme capable of preventing sensing speed from lowering due to variations in an external power supply. The semiconductor memory device includes a memory cell array which includes a plurality of memory cells, each coupled to a bitline and a complementary bitline; a coupling capacitor with one end connected to either said bitline or the complementary bitline, and the other end of which a control signal is applied to; a bitline sensing amplifier; and a control circuit which generate the control signal. The improvement also consist of ***having an internal power supply for such control circuit, and this internal power is generated by dropping an external power supply applied from the outside of said semiconductor memory device.***

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Viet Q. Nguyen whose telephone number is (571) 272-1788. The examiner can normally be reached on 7am-6pm (EST).
